

## **Victim's Services**

The County Attorney's Office respects the rights of crime victims. Every effort will be made to secure restitution and to ensure that victims have a voice in the courtroom.

**We need your help to do our job!**

Whether you are the victim of a violent crime such as assault or a property crime such as theft or criminal mischief, it is extremely important for you to provide my office with accurate contact information so that I can reach you.

If you are listed as the victim in a crime reported to our office for prosecution, you should be receiving a letter in the mail asking for basic contact information and any out of pocket expenses which you have incurred due to the crime. Please reply to this letter by fax, phone, or letter as requested or I will assume you no longer request restitution.

You will most likely be asked to provide pictures of injuries or damages, and estimates and receipts for damages.
