

**Addendum No. 3 August 20, 2024**

The following questions were submitted by proposers:

**Question 1:**

RFP refers to a Statement of Requirements and meeting those requirements, but an SOR document hasn't been provided. Can you provide any guidance?

**County Response:** Project 25 Statement of Requirements (P25 SoR) has been superseded by Statement of Project 25 (P25) User Needs, (SPUN August 2023) Section 3.2 has been revised as follows:

**Section 3.2 INTEROPERABILITY/P25 STATEMENT OF REQUIREMENTS**

- B. By stating compliance with a level-two heading in the Statement of Project 25 (P25) User Needs, (SPUN) Appendices A-E, an Offeror claims compliance with all applicable level-three requirements in the SPUN. If an Offeror is not compliant with a requirement, the Offeror shall identify the requirement by number and name and provide a detailed explanation of why the proposed system does not meet the requirement.
